BTB Real Estate Investment Trust

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six-month periods ended June 30, 2016 and 2015
(Unaudited - in thousands of CAD dollars, except per unit amounts)

1. Reporting Entity

BTB Real Estate Investment Trust (“BTB”) is an unincorporated open-ended real estate investment trust formed and governed under the Civil code of Quebec pursuant to a trust agreement and is domiciled in Canada. The address of BTB’s registered office is 2155, Crescent street, Montreal, Quebec, Canada. The consolidated financial statements of BTB for the six-month periods ended June 30, 2016 and 2015 comprise BTB and its wholly-owned subsidiaries (together referred to as the “Trust”) and the Trust’s interest in joint operations.

2. Basis of Preparation

(a) Statement of compliance

The unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”). They do not include all of the information required for full annual consolidated financial statements, and should be read in conjunction with the Trust’s consolidated financial statements for the years ended December 31, 2015 and 2014.

The accounting policies applied by the Trust in these unaudited condensed consolidated interim financial statements are the same as those applied by the Trust in its consolidated financial statements for the year ended December 31, 2015.

These condensed consolidated interim financial statements were approved by the Board of Trustees on August 4, 2016.

(b) Basis of presentation and measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- Investment properties are measured at fair value;
- Derivative financial instruments are measured at fair value;
- Unit-based compensation is measured using a fair value-based method of accounting.

The Trust presents its consolidated statements of financial position based on the liquidity method, whereby all assets and liabilities are presented in increasing order of liquidity.

(c) Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is BTB’s functional currency. All financial information presented in Canadian dollars has been rounded to the nearest thousand, except per unit amounts.

BTB Real Estate Investment Trust

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six-month periods ended June 30, 2016 and 2015
(Unaudited - in thousands of CAD dollars, except per unit amounts)

(d) Use of estimates and judgments

The preparation of consolidated financial statements in conformity with International Financial Reporting Standards (“IFRS”) requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Actual results may differ from these estimates.

The significant judgments made by management in applying the Trust’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2015.

(e) Change in accounting policy

In 2016, the Trust adopted the amendments to IAS 1, *Presentation of Financial Statements* and to IFRS 11, *Joint Arrangements*. The application of the amendments had no impact on the Trust’s consolidated financial statements.

(f) New standards and interpretations not yet adopted

A number of new standards, and amendments to standards and interpretations, are not yet effective for the year December 31, 2016, and have not been applied in preparing these condensed consolidated interim financial statements.

(i) IFRS 9, Financial Instruments (“IFRS 9”)

On July 24, 2014 the IASB issued the complete IFRS 9 (IFRS 9 (2014)). IFRS 9 (2014) introduces new requirements for the classification and measurement of financial assets. Under IFRS 9 (2014), financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows. The standard introduces additional changes relating to financial liabilities. It also amends the impairment model by introducing a new ‘expected credit loss’ model for calculating impairment.

IFRS 9 (2014) also includes a new general hedge accounting standard which aligns hedge accounting more closely with risk management. This new standard does not fundamentally change the types of hedging relationships or the requirement to measure and recognize ineffectiveness, however it will provide more hedging strategies that are used for risk management to qualify for hedge accounting and introduce more judgment to assess the effectiveness of a hedging relationship. Special transitional requirements have been set for the application of the new general hedging model. The new standard is effective for the Trust’s annual period beginning on January 1, 2018. The extent of the impact of adoption of the standard has not yet been determined.

(Unaudited - in thousands of CAD dollars, except per unit amounts)

(ii) IFRS 15, Revenue from Contracts with Customers (“IFRS 15”)

In May 2014 the IASB issued IFRS 15 in replacement of IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfer of Assets from Customers, and SIC 31 Revenue – Barter Transactions Involving Advertising Services. The standard contains a single model that applies to contracts with customers and two approaches to recognising revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. The new standard is effective for the Trust’s annual period beginning on January 1, 2018. The extent of the impact of adoption of the standard has not yet been determined.

(iii) IFRS 16, Leases (“IFRS 16”)

In January 2016, the IASB issued IFRS 16, Leases. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting, however, remains largely unchanged and the distinction between operating and finance leases is retained. This standard would be effective for the Trust's annual periods beginning after January 1, 2019 with earlier adoption permitted. The extent of the impact of adoption of the standard has not yet been determined.

The fair value of a subset of the Trust's investment properties comprised of a selection of the most significant investment properties and approximately 1/3 of the remaining investment properties is determined annually on the basis of valuations made by independent external appraisers having appropriate professional qualifications, using recognized valuation techniques, comprising the Discounted Cash Flow, the Direct Capitalization and Comparable methods. The selection of investment properties subject to external valuation is determined by management based on its assessment of circumstances that in its view, may impact the value of a particular individual investment property. The fair value of the remaining investment properties is determined by management using internally generated valuations based on the Direct Capitalization method.

At June 30, 2016 no external appraisal were obtained for investment properties (December 31, 2015 - \$394,213).

BTB Real Estate Investment Trust

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six-month periods ended June 30, 2016 and 2015
(Unaudited - in thousands of CAD dollars, except per unit amounts)

The fair value of investment properties is based on Level 3 inputs. There have been no transfers during the period between levels. The significant inputs used to determine the fair value of the Trust's investment properties are as follows:

	Commercial	Office	Industrial	General purpose
As at June 30, 2016				
Capitalization rate	6.25% - 10.00%	6.50% - 9.25%	6.50% - 9.75%	7.25% - 8.25%
Terminal capitalization rate	7.00% - 8.50%	6.75% - 7.75%	7.75% - 9.75%	7.50% - 8.00%
Discount rate	7.75% - 9.00%	7.25% - 8.50%	8.25% - 10.50%	8.00% - 8.50%
As at December 31, 2015				
Capitalization rate	6.25% - 10.00%	6.50% - 9.25%	6.50% - 9.75%	7.25% - 8.25%
Terminal capitalization rate	7.00% - 8.50%	6.75% - 7.75%	7.75% - 9.75%	7.50% - 8.00%
Discount rate	7.75% - 9.00%	7.50% - 8.50%	8.25% - 10.50%	8.00% - 8.50%

During the first quarter of 2016, the classification of six investment properties was updated. The comparatives figures have been reclassified to conform to the current year's presentation.

Valuations determined by the Direct Capitalization method are most sensitive to changes in capitalization rate. An increase in the capitalization rate, other things being equal, will result in a decrease in fair value of the investment properties and vice-versa.

4. Acquisitions

(a) 2016 Asset acquisition

The relative fair value of the assets and liabilities recognized in the consolidated statement of financial position on the date of the acquisition during 2016 were as follows:

Series D

In July 2011, the Trust issued Series D subordinated convertible, redeemable, unsecured debentures bearing 7.25% interest payable semi-annually and maturing in July 2018, in the amount of \$23,000. In June 2016, the Trust sent a notice of redemption to the debentures holders to redeem all outstanding debentures. The debentures were redeemed for their nominal value on August 2, 2016.

Series E

In February 2013, the Trust issued Series E subordinated convertible, redeemable, unsecured debentures bearing 6.90% interest payable semi-annually and maturing in March 2020, in the amount of \$23,000. The debentures are convertible at the holder's option at any time before March 2020, at a conversion price of \$6.15 per unit ("Series E Conversion Price").

Until March 31, 2018, under certain conditions, the debentures will be redeemable by the Trust at a redemption price equal to their principal amount plus accrued, unpaid interest, provided that the average weighted price based on the volume of units traded on the Toronto Stock Exchange during a period of 20 consecutive trading days ending on the fifth trading day prior to the date on which an advanced notice of redemption is given (the "current market price") is at least 125% of the conversion price. As of March 31, 2018, but before March 31, 2020, under certain conditions, the debentures will be redeemable by the Trust, in whole or in part at any time and for a redemption price equal to the principal amount thereof plus accrued and unpaid interest. The Trust may, under certain conditions, elect to satisfy its obligation to pay the principal amount of the debentures that are to be redeemed or that have matured by issuing a number of units obtained by dividing the principal amount of the debentures by 95% of the current market price on the date of redemption or maturity.

Series F

In December 2015, the Trust issued Series F subordinated convertible, redeemable, unsecured debentures bearing 7.15% interest payable semi-annually and maturing in December 2020, in the amount of \$26,700. The debentures are convertible at the holder's option at any time before December 2020, at a conversion price of \$5.65 per unit ("Series F Conversion Price").

These debentures are not redeemable before December 31, 2018, except in the case of a change in control. As of December 31, 2018, but before December 31, 2019, under certain conditions, the debentures will be redeemable by the Trust at a redemption price equal to their principal amount plus accrued, unpaid interest, provided that the average weighted price based on the volume of units traded on the Toronto Stock Exchange during a period of 20 consecutive trading days ending on the fifth trading day prior to the date on which an advanced notice of redemption is given (the "current market price") is at least 125% of the conversion price. As of December 31, 2019, but before December 31, 2020, under certain conditions, the debentures will be redeemable by the Trust, in whole or in part at any time and for a redemption price equal to the principal amount thereof plus accrued and unpaid interest. The Trust may, under certain conditions, elect to satisfy its obligation to pay the principal amount of the debentures that are to be redeemed or that have matured by issuing a number of units obtained by dividing the principal amount of the debentures by 95% of the current market price on the date of redemption or maturity.

12. Bank Loans

The Trust has access to an acquisition line of credit in the amount of \$15,000. This line of credit bears interest at a rate of 3.25% above the prime rate. As at June 30, 2016, no amount was due under the acquisition line of credit (December 31, 2015- \$9,800). The available amount on the acquisition line of credit was increased to \$19,000 in July 2016.

The Trust also has access to an operating credit facility for a maximum amount of \$2,000. This facility bears interest at a rate of 0.75% above the prime rate. As at June 30, 2016 and December 31, 2015, no amount was due under the operating credit facility. The available amount on the operating credit facility was increased to \$3,000 in July 2016.

The acquisition line of credit and the operating credit facility are secured by an immoveable first rank hypothec on three properties having a value of \$7,971 and by an immoveable second rank hypothec on four properties having a value of \$88,116.

13. Fair Value Measurement

The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. They do not include the fair value of cash and cash equivalents, restricted cash, receivables, deposits, trade and other payables and distributions payable to unitholders, which approximated their carrying amount as at June 30, 2016 and December 31, 2015 because of their short-term maturity.

As at June 30, 2016	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$

Convertible debentures, including their conversion and redemption features	68,874	72,012	—	—
Bank loans (note 12)	9,800	—	9,800	—

The fair value of mortgage loans payable was calculated by discounting cash flows from future payments of principal and interest using the period end market rate for various loans with similar risk and credit profiles. The period end market rates have been estimated by reference to published mortgage rates by major financial institutions for similar maturities.

The fair value of convertible debentures, including their conversion and redemption features, was determined with reference to the last quoted trading price preceding the period end.

The fair value of bank loans was calculated by discounting cash flows from financial obligations using the period end market rate for similar instruments.

For the six-month periods ended June 30, 2016 and 2015
(Unaudited - in thousands of CAD dollars, except per unit amounts)

The fair values of derivative financial instruments, which comprise the conversion and redemption options of convertible debentures and an interest rate swap, are based respectively on the partial differential equation method and the discounted future cash flows method. The assumptions used in the partial differential equation method are estimated by reference to the Trust's unit price and its volatility, and take into account the credit risk of the financial instrument. The assumptions used in the discounted future cash flows method are estimated by reference to the Canadian Dealer Offered Rate ("CDOR") forward rates.

Such fair value estimates are not necessarily indicative of the amounts the Trust might pay or receive in actual market transactions. Potential transaction costs have also not been considered in estimating fair value.

The following tables provide a reconciliation of Level 3 fair value measurements on the consolidated statements of financial position:

	Conversion and redemption options of convertible debentures

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six-month periods ended June 30, 2016 and 2015
(Unaudited - in thousands of CAD dollars, except per unit amounts)

The following table provides a sensitivity analysis for the volatility applied in fair value measurement of the conversion and redemption options of convertible debentures at June 30, 2016:

	Conversion and redemption options of convertible debentures	Volatility
	\$	%
Volatility sensitivity		
Increase (decrease)		
(0.50%)	(104)	16.82
June 30, 2016	(16)	17.32
0.50%	78	17.82

As shown in the sensitivity analysis above, the fair value of the conversion and redemption options of convertible debentures is impacted by a change in the volatility used in the valuation model. Generally, an increase in the volatility, other things being equal, will result in an increase in fair value of the conversion and redemption options of convertible debentures and vice-versa. In some cases, when the fair value of the redemption option component is increasing more than the fair value of the conversion option component, an increase in volatility will result in a decrease in fair value of the conversion and redemption options.

14. Unit-based Compensation

(a) Unit option plan

The Trust may grant options to its trustees, senior officers, investor relations consultants, and technical consultants. The maximum number of units reserved for issuance under the unit option plan is limited to 10% of the total number of issued and outstanding units. The trustees set the exercise price at the time that the units are granted under the plan; the exercise price may not be less than the discounted market price of the units as determined under the policies of the Toronto Stock Exchange on the date of grant. The options have a minimum term of five years as of the grant date and vest over a period of up to 18 months.

All of the outstanding options have been exercised during the year ended December 31, 2015. As a result, there is no option outstanding as at June 30, 2016 and December 31, 2015.

(b) Deferred unit compensation plan for trustees and certain executive officers

The Trust offers a deferred unit compensation plan for its trustees and certain executive officers. Under this plan, the trustees and certain executive officers may elect to receive as compensation either cash, deferred units, or a combination of both.

As at June 30, 2016, the liability related to the plan was \$2 (December 31, 2015 - \$nil). The related expense recorded in profit and loss amounted to \$2 for the six-month period ended June 30, 2016 (no expense for the six-month period ended June 30, 2015).

(c) Employee unit purchase plan

The Trust offers an optional employee unit purchase plan to all its employees. Under this plan, the employees may contribute, each year, pursuant to a maximum of 3% to 7% of their base salary depending of their years of service with the Trust. For each two units purchased by an employee, the Trust issues one unit from treasury.

As at June 30, 2016, the liability related to the plan was \$nil (December 31, 2015 - \$37, representing a total of 8,340 units to issue). The related income recorded in profit and loss amounted to \$2 for the six-month period ended June 30, 2016 (for the six-month periods ended June 30, 2015 - expense of \$1). The 8,340 units related to 2015 purchases were issued in February 2016 (7,758 units related to 2014 purchases - February 2015).

(d) Restricted unit compensation plan

The Trust offers a restricted unit compensation plan for all executive officers and key employees. Under this plan, the executive officers and key employees are eligible to receive restricted units.

The following table presents relevant information on changes in the restricted units:

For the six-month periods ended June 30,	2016	2015
	Restricted units	Restricted units

period ended June 30, 2015- \$170). As part of settlement, the Trust issued 14,198 units under this plan for six-month period ended June 30, 2016 (51,601 units for the six-month period ended June 30, 2015).

15. Trust Units Issued and Outstanding

BTB is authorized to issue an unlimited number of trust units. Each trust unit represents a single vote at any meeting of unitholders and entitles the unitholder to receive a pro rata share of all distributions. The unitholders have the right to require BTB to redeem their trust units on demand. Upon receipt of the redemption notice, all rights to and under the trust units tendered for redemption are surrendered and the holder thereof is entitled to receive a price per trust unit ("Redemption Price"), as determined by a market formula. The Redemption Price is to be paid in accordance with the conditions provided for in the Declaration of Trust. BTB trust units are considered liability instruments under IFRS because the units are redeemable at the option of the holder, however they are presented as equity in accordance with IAS 32.

In June 2016, the Trust completed a public issue of 6,594,000 units for total net proceeds of \$28,457. The over-allotment option was partially exercised by the underwriters in July 2016 (see note 24).

(a) Distribution reinvestment plan

BTB offers a distribution reinvestment plan for its trust unitholders. Participation in the plan is optional and under the terms of the plan, cash distributions on trust units are used to purchase additional trust units. The trust units are issued from BTB's treasury at a price based on the volume-weighted average of the trading prices on the Toronto Stock Exchange for the last five trading days before the distribution date, less a discount of 3%.

20. Earnings per Unit

BTB's trust units being puttable financial instruments presented as equity in accordance with IAS 32 (see note 15), the Trust is not required to report a profit or loss per unit figure on its consolidated statements of comprehensive income. However, for disclosure purposes only, the Trust has determined basic earnings per unit using the same basis that would apply in accordance with IAS 33, *Earnings per Share*.

Net earnings per unit are calculated based on the weighted average number of units outstanding as follows:

	For the three-month periods ended June 30,		For the six-month periods ended June 30,	
	2016	2015	2016	2015

Earnings per unit – basic	0.11	0.11	0.22	0.21

21. Operating Lease Income

The Trust as lessor enters into leases on its investment properties. Initial lease terms are generally between three and ten years and include clauses to enable periodic upward revision of the rental charge according to prevailing market conditions. Some leases contain options to terminate before the end of the lease term.

22. Operating Segments

For investment properties, discrete financial information is provided to the Chief Executive Officer (“CEO”) on an aggregated investment property basis. The information provided is net rentals (including gross rent and property expenses), the change in fair value of investment properties and fair value of investment properties. The individual investment properties are aggregated into segments with similar economic characteristics. The CEO considers that this is best achieved by aggregating into commercial, office, industrial and general purpose segments.

Consequently, the Trust is considered to have four operating segments, as follows:

- Commercial
- Office
- Industrial
- General purpose

The present value of the minimum lease payments is recorded in Trade and other payables.

(c) Litigation

The Trust is involved in litigations and claims which arise from time to time in the normal course of business. These litigations and claims are generally covered by insurance. In the opinion of management, any liability that may arise from such contingencies will not have a significant adverse effect on the Trust's consolidated financial statements.

24. Subsequent Events

In July 2016, the underwriters partially exercised their over-allotment option related to the June 2016 issuance of trust units. Accordingly the Trust issued 565,342 units for gross proceeds of \$2,572.

In August 2016, all the outstanding Series D debentures were redeemed for their nominal amount of \$23,000.
