## Notes to Condensed Consolidated Interim Financial Statements

For the six-month periods ended June 30, 2020 and 2019 (Unaudited - in thousands of CAD dollars, except per unit amounts)

### 1. Reporting Entity

BTB Real Estate Investment Trust (“BTB”) is an unincorporated open-ended real estate investment trust formed and governed under the Civil code of Quebec pursuant to a trust agreement and is domiciled in Canada. The address of BTB’s registered office is 1411 Crescent Street, Suite 300, Montreal, Quebec, Canada. The condensed consolidated interim financial statements of BTB for the three-month and six-month periods ended June 30, 2020 and 2019 comprise BTB and its wholly-owned subsidiaries (together referred to as the “Trust”) and the Trust’s interest in joint operations.

### 2. Basis of Preparation

#### a) Statement of compliance

The unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). They do not include all of the information required for full annual consolidated financial statements, and should be read in conjunction with the Trust’s consolidated financial statements for the year ended December 31, 2019.

The accounting policies applied by the Trust in these unaudited condensed interim financial statements are the same as those applied by the Trust in its consolidated financial statements for the year ended December 31, 2019.

These condensed consolidated interim financial statements were approved by the Board of Trustees on August 11, 2020.

#### b) Basis of presentation and measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position which are measured at fair value:

- Investment properties (including right-of-use assets);
- Derivative financial instruments;
- Unit-based compensation;
- Class B LP Units.

The Trust presents its consolidated statements of financial position based on the liquidity method, whereby all assets and liabilities are presented in increasing order of liquidity.

#### c) Risks and uncertainties related to the coronavirus pandemic (COVID-19)

The COVID-19 pandemic has resulted in the federal and provincial governments enacting emergency measures to combat the spread of the virus. These measures, which included the implementation of travel bans, self-imposed quarantine periods, restrictions on or closures of non-essential businesses and social distancing, have caused an economic slowdown and material disruption to businesses in Canada and globally resulting in an uncertain and challenging economic environment that could negatively impact the operations of the Trust and its financial results in future periods. Global equity and capital markets have also experienced significant volatility and weakness. The governments have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

At the time of publication, the duration and impact of the COVID-19 pandemic is still unknown, as are the effectiveness of the central bank and government interventions. It is not possible to forecast with certainty the duration and full scope of the economic impact of COVID-19 and other consequential changes it will have on the Trust operations. In a long term scenario, certain aspects of the Trust operations that could potentially be impacted include rental income, occupancy, tenant inducements, future demand for space and market rents, which all ultimately impact the underlying valuation of the Trust’s investment properties.

In light of the COVID-19 pandemic, the Trust is also reviewing its future cash flow projections (see Note 17).

**d) Functional and presentation currency**

These consolidated financial statements are presented in Canadian dollars, which is BTB's functional currency. All financial information has been rounded to the nearest thousand, except per unit amounts.

**e) Use of estimates and judgments**

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Actual results may differ from these estimates, and the differences may be material.

The significant judgments made by management in applying the Trust's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2019, except as indicated below.

Key sources of estimation uncertainty especially impacted by COVID-19 consist of the valuation of investment properties and the determination of the Trust's expected credit losses on receivables.

*Valuation of investment properties*

The Trust expects that COVID-19 will have the most notable impact on its retail portfolio. The carrying value for the Trust's investment properties reflects its best estimate for the highest and best use as at June 30, 2020 taking into account the expected impact of COVID-19 at that date (see Note 3).

*Determination of expected credit losses on receivables*

As a result of COVID-19, the Trust has received numerous requests from tenants asking for rental concessions or payment deferrals. The Trust has agreed to assist some of its tenants with rent deferrals, rent abatements and is participating in the Canada Emergency Commercial Rent Assistance ("CECRA") Program. In determining its allowance for expected credit losses as at June 30, 2020, the Trust has considered the credit profile of its tenants and their eligibility for CECRA, historical loss rates as well as the current economic environment.

**3. Investment Properties**

	Six-month period ended June 30, 2020	Year ended December 31, 2019

Net changes in fair value of investment properties (note 3 (c))	(10,505)	34,113
<b>Balance end of period</b>	<b>894,679</b>	<b>924,320</b>

The fair value of a subset of the Trust's investment properties comprised of a selection of the most significant investment properties and approximately 1/3 of the remaining investment properties is determined annually on the basis of valuations made by independent external appraisers having appropriate professional qualifications, using recognized valuation techniques, comprising the Discounted Cash Flow, the Direct Capitalization and Comparable methods. The selection of investment properties subject to independent external valuation is determined by management based on its assessment of circumstances that in its view, may impact the value of a particular individual investment property. The fair value of the remaining investment properties is determined by management using internally generated valuations based on the Direct Capitalization method.

At June 30, 2020, no external appraisals were obtained for investment properties (December 31, 2019 - \$581,420). The Trust internally reviewed and updated the fair value of all of its investment properties in light of COVID-19, taking into account property segments, tenant profile and management's expectation of movements in capitalization rates.

The fair value of investment properties is based on Level 3 inputs. There have been no transfers during the period between levels. The significant inputs used to determine the fair value of the Trust's investment properties are as follows:

	Retail	Office	Industrial	Mixed-use
<b>As at June 30, 2020</b>				
Capitalization rate	6.00% - 8.00%	5.75% - 7.50%	5.75% - 8.50%	5.00% - 8.50%
Terminal capitalization rate	6.25% - 7.25%	6.25% - 7.50%	6.00% - 7.25%	5.25% - 7.25%
Discount rate	7.25% - 8.00%	6.75% - 8.00%	6.50% - 8.00%	6.25% - 8.00%
<b>As at December 31, 2019</b>				
Capitalization rate	6.00% - 7.75%	5.75% - 7.50%	5.75% - 8.50%	5.00% - 8.25%
Terminal capitalization rate	6.25% - 7.25%	6.25% - 7.50%	6.00% - 7.25%	5.25% - 7.25%
Discount rate	7.25% - 7.75%	6.75% - 8.00%	6.50% - 8.00%	6.25% - 8.00%

Valuations determined by the Direct Capitalization method are most sensitive to a change in the capitalization rate. An increase in the capitalization rate, other things being equal, will result in a decrease in fair value of the investment properties and vice-versa.

Capitalization rate sensitivity Increase (decrease)	Fair Value	Change in fair value
	\$	\$
(0.50%)	968,435	73,756
(0.25%)	929,530	34,851
Base rate	894,679	—
0.25%	859,918	(34,761)
0.50%	828,948	(65,731)

## a) Acquisitions

### i) Acquisitions in 2020

The fair value of the assets and liabilities recognized in the condensed consolidated interim statement of financial position on the date of the acquisition during the six-month period ended June 30, 2020 were as follows:

Acquisition date	Property type	Location	Interest acquired	Investment properties, including transaction costs	Fair value recognized on acquisition		
					Mortgage loan	Receivable/ (Trade and other payables), including transaction costs	Total cash consideration paid

## b) Dispositions

## i) Dispositions in 2020

Disposal date	Property type	Location	Gross proceeds	Mortgage assumption	Receivable/ (Trade and other payables), including transaction costs	Net proceeds
January 2020	Industrial	Ingersoll, ON	13,300	(9,068)	(103)	4,129

<b>Total</b>			<b>44,175</b>	<b>(9,068)</b>	<b>(1,990)</b>	<b>33,117</b>

As part of the investment property disposition that occurred in the month of June 2020, an amount of \$21,018 from the proceeds of disposition was deposited in escrow account. On July 2, 2020, a portion of the fund in the escrow account were used to reimburse the outstanding mortgage loan of \$9,900 registered on the investment property and to pay the accrued interest and prepayment penalty of \$481. The remaining balance of \$10,637 was received by the Trust on the same date.

## ii) Dispositions in 2019

Disposal date	Property type	Location	Gross proceeds	Mortgage assumption	Balance of sale	Receivable/ (Trade and other payables), including transaction costs	Net proceeds
February 2019	Retail	Delson, QC	22,500	(12,533)	(6,000)	(20)	3,947
March 2019	Retail	Delson, QC	1,950	—	—	(5)	1,945

<b>Total</b>			<b>31,550</b>	<b>(12,533)</b>	<b>(6,000)</b>	<b>(797)</b>	<b>12,220</b>

The balance of sale consists of a loan, expiring on January 31, 2024, bearing interest at 7% for the first 3 years, at 7.50% for the 4<sup>th</sup> year, and at 8% for the 5<sup>th</sup> year. The balance of sale as at June 30, 2020 is \$6,035.

**c) Net changes in fair value of investment properties and disposition expenses**

	Three-month period ended June 30,		Six-month periods ended June 30,	
	2020	2019	2020	2019
	\$	\$	\$	\$
Net changes in fair value of investment properties (note 3)	3,607	(33)	10,505	(23)
Disposition expenses (note 3 (b))	882	345	1,711	741
	<b>4,489</b>	<b>312</b>	<b>12,216</b>	<b>718</b>

Net changes in fair value of investment properties includes the net changes in fair value of right-of-use assets related to the investment properties to which a lease is attached.

The disposition expenses include mainly commissions and debt prepayment penalties on mortgage loans related to disposed properties.

**4. Other Assets**

	As at June 30, 2020	As at December 31, 2019
	\$	\$
Prepaid expenses	1,465	1,921
Deposits	753	675
<b>Total</b>	<b>2,218</b>	<b>2,596</b>

**5. Receivables**

	As at June 30, 2020	As at December 31, 2019
	\$	\$
Rents receivable	8,460	2,801
Allowance for expected credit losses	(2,078)	(716)
Net rents receivable	6,382	2,085
Unbilled recoveries	643	776
Other receivables	841	948
CECRA grants receivable (note 13)	877	—
<b>Total</b>	<b>8,743</b>	<b>3,809</b>

Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. The Trust mitigates this risk by varying its tenant mix and staggering lease terms; avoiding dependence on a single tenant for a significant portion of the Trust's operating revenues and conducting credit assessments for all major new tenants. The Trust analyzes its trade receivable on a regular basis and establishes an allowance for expected credit losses that represents its estimate of lifetime expected credit losses to be incurred in respect of its trade receivables. In assessing the adequacy of allowance for doubtful accounts provisions on tenant receivables for these interim financial statements, management has considered the likelihood of collection of current receivables given the impact on tenant operations of COVID-19 restrictions imposed by various levels of government and the expected eligibility of those tenants to government programs such as CECRA.

The Trust's assessment of expected credit losses is inherently subjective due to the forward-looking nature of the assessments. As a result, the value of the expected credit loss is subject to a degree of uncertainty and is made on the basis of assumptions which may not prove to be accurate with the unprecedented uncertainty caused by COVID-19.

## 6. Mortgage Loans Payable

Mortgage loans payable are secured by immovable hypothecs on investment properties having a fair value of approximately \$877,544 as at June 30, 2020 (December 31, 2019 – \$913,620).

	As at June 30, 2020	As at December 31, 2019
	\$	\$
Fixed rate mortgage loans payable	402,191	387,029
Floating rate mortgage loans payable	95,089	108,218
Unamortized fair value assumption adjustments	709	628
Unamortized financing expenses	(2,390)	(2,723)
<b>Mortgage loans payable</b>	<b>495,599</b>	<b>493,152</b>
Short-term portion	76,213	87,589
Weighted average interest rate	3.75%	3.92%
Weighted average term to maturity (years)	4.78	5.12
Range of annual rates	2.37% - 6.80%	2.77% - 6.80%

As at June 30, 2020, the mortgage loan scheduled repayments are as follows:

	Scheduled repayments	Principal maturity	Total
	\$	\$	\$
2020*	6,842	69,371	76,213
2021	14,767	58,241	73,008
2022	13,069	18,822	31,891
2023	10,991	32,624	43,615
2024	8,631	73,493	82,124
Thereafter	36,354	154,075	190,429
	<b>90,654</b>	<b>406,626</b>	<b>497,280</b>
Unamortized fair value assumption adjustments			709
Unamortized financing expenses			(2,390)
			<b>495,599</b>

\* For the six-month period remaining

The Trust may enter into floating-for-fixed interest rate swap agreements on floating interest rate mortgages to hedge the variability in cash flows attributed to fluctuating interest rates. The Trust does not apply hedge accounting to such cash flow hedging relationships (see Note 10). The following table presents relevant information on interest rate swap agreements:

## 8. Bank Loans

The Trust has access to an acquisition line of credit in the amount of \$19,000. This line of credit bears interest at a rate of 3.25% above the prime rate. As at June 30, 2020, \$15,100 was due under the acquisition line of credit (December 31, 2019 – \$10,200).

The Trust also has access to an operating credit facility for a maximum amount of \$3,000. This facility bears interest at a rate of 0.75% above the prime rate. As at June 30, 2020, \$2,020 was due under the operating credit facility (December 31, 2019 – \$2,260).

The acquisition line of credit and the operating credit facility are secured by an immoveable first rank hypothec on two properties having a fair value of \$6,363 and by an immoveable second rank hypothec on six properties having a fair value of \$131,451.

## 9. Class B LP Units

	Six-month period ended June 30, 2020		Year ended December 31, 2019	
	Units	\$	Units	\$

<b>Units outstanding, end of period</b>	<b>397,265</b>	<b>1,220</b>	<b>497,265</b>	<b>2,571</b>

The Class B LP Units are exchangeable into Trust units on a one-for-one basis at any time at the option of the holder. During the six-month period ended June 30, 2020, 100,000 Class B LP Units were exchanged into Trust units.

The Class B LP Units are entitled to distribution equal to distribution declared on Trust units, on a one-to-one basis. Distribution on Class B LP Units are recognized in the statement of comprehensive income when declared.

	Three-month periods ended June 30,		Six-month periods ended June 30,

#### 10. Fair Value Measurement

The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. They do not include the fair value of cash and cash equivalent, restricted cash, receivables, balance of sale, trade and other payables and distribution payable to unitholders, which approximated their carrying amount as at June 30, 2020 and December 31, 2019 because of their short-term maturity or because they bear interest at current market rates.

As at June 30, 2020	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$
<b>Measured at fair value</b>				
Conversion and redemption options of convertible debentures (note 7)	(8)	—	—	(8)
Interest rate swap liability	4,176	—	4,176	—

Bank loans (note 8)	17,120	—	17,120	—

As at December 31, 2019	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$
<b>Measured at fair value</b>				
Conversion and redemption options of convertible debentures (note 7)	45	—	—	45
Interest rate swap asset	(304)	—	(304)	—
Class B LP Units (note 9)	2,571	2,571	—	—
<b>For which fair values are disclosed</b>				
Mortgage loans payable (note 6)	493,152	—	506,430	—
Convertible debentures, including their conversion and redemption features (note 7)	49,141	52,827	—	—
Bank loans (note 8)	12,460	—	12,460	—

The fair value of mortgage loans payable was calculated by discounting cash flows from future payments of principal and interest using the period end market rate for various loans with similar risk and credit profiles. The period end market rates have been estimated by reference to published mortgage rates by major financial institutions for similar maturities.

The fair value of convertible debentures, including their conversion and redemption features, was determined with reference to the last quoted trading price preceding the period end.

The fair value of the Class B LP Units is determined with reference to the market price of the Trust units as at period end.

The fair values of derivative financial instruments, which comprise the conversion and redemption options of convertible debentures and an interest rate swap, are based respectively on the partial differential equation method and the discounted future cash flows method. The assumptions used in the partial differential equation method are estimated by reference to the market price of the Trust units and its volatility, and take into account the credit risk of the financial instrument. The assumptions used in the discounted future cash flows method are estimated by reference to the Canadian Dollar Offered Rate ("CDOR") forward rates.

Such fair value estimates are not necessarily indicative of the amounts the Trust might pay or receive in actual market transactions. Potential transaction costs have also not been considered in estimating fair value.

The following tables provide a reconciliation of Level 3 fair value measurements on the consolidated statements of financial position:

	<b>Conversion and redemption options of convertible debentures</b>
	\$
<b>Six-month period ended June 30, 2020</b>	
Balance beginning of period	45
Change for the period recognized in profit or loss under Net adjustment to fair value of derivative financial instruments	(53)
<b>Balance end of period</b>	<b>(8)</b>

	<b>Conversion and redemption options of convertible debentures</b>
	\$
<b>Year ended December 31, 2019</b>	
Balance beginning of year	(45)
Change for the year recognized in profit or loss under Net adjustment to fair value of derivative financial instruments	90
<b>Balance end of year</b>	<b>45</b>

The following table provides a sensitivity analysis for the volatility applied in fair value measurement of the conversion and redemption options of convertible debentures at June 30, 2020:

	<b>Conversion and redemption options of convertible debentures</b>	<b>Volatility</b>
	\$	%
<b>Volatility sensitivity</b>		
<b>Increase (decrease)</b>		
(0.50%)	(72)	65.78
June 30, 2020	(8)	66.28
0.50%	62	66.78

As shown in the sensitivity analysis above, the fair value of the conversion and redemption options of convertible debentures is impacted by a change in the volatility used in the valuation model. Generally, an increase in the volatility, other things being equal, will result in an increase in fair value of the conversion and redemption options of convertible debentures and vice-versa.

## 11. Unit-based Compensation

### a) Deferred unit compensation plan for trustees and certain executive officers

The Trust offers a deferred unit compensation plan for its trustees and certain executive officers. Under this plan, the trustees and certain executive officers may elect to receive as compensation either cash, deferred units, or a combination of both.

The following table presents relevant information on changes in the number of deferred units:

For the six-month periods ended June 30,	2020	2019
	Deferred units	Deferred units
Outstanding, beginning of period	59,642	37,056
Trustees' compensation	18,342	14,520
Distributions paid in units	3,418	2,055
Settled	(2,973)	—
<b>Outstanding, end of period</b>	<b>78,429</b>	<b>53,631</b>

As at June 30, 2020, the liability related to the plan was \$249 (December 31, 2019 - \$306). The related amount recorded in profit or loss amounted to an expense of \$29 and a revenue of \$42 respectively, for the three and six-month periods ended June 30, 2020 (for the three and six-month periods ended June 30, 2019 - expense of \$10 and \$100).

### b) Employee unit purchase plan

The Trust offers an optional employee unit purchase plan to all its employees. Under this plan, the employees may contribute, each year, pursuant to a maximum of 3% to 7% of their base salary depending of their years of service with the Trust. For each two units purchased by an employee, the Trust issues one unit from treasury.

As at June 30, 2020, there was no liability related to the plan (December 31, 2019- \$58). The related expense recorded in profit and loss amounted to \$nil and \$3 for the three and six-month periods ended June 30, 2020 (for the three and six-month periods ended June 30, 2019 - \$nil and \$3). The 11,194 units related to 2019 purchases were issued in February 2020 (9,253 units related to 2018 purchases - February 2019).

### c) Restricted unit compensation plan

The Trust offers a restricted unit compensation plan for all executive officers and key employees. Under this plan, the executive officers and key employees are eligible to receive restricted units.

The following table presents relevant information on changes in the restricted units:

Six-month periods ended June 30,	2020	2019
	Restricted units	Restricted units
Outstanding, beginning of period	165,012	138,919
Granted	49,237	76,133
Cancelled	(10,971)	(666)
Settled	(59,327)	(52,830)
<b>Outstanding, end of period</b>	<b>143,951</b>	<b>161,556</b>

As at June 30, 2020, the liability related to the plan was \$290 (December 31, 2019 - \$686). The related amount recorded in profit and loss amounted to an expense of \$22 and an income of \$83, respectively, for the three and six-months period ended June 30, 2020 (for the three and six-month periods ended June 30, 2019 - expense of \$79 and \$201).

## 12. Trust Units Issued and Outstanding

BTB is authorized to issue an unlimited number of trust units. Each trust unit represents a single vote at any meeting of unitholders and entitles the unitholder to receive a pro rata share of all distributions. The unitholders have the right to require BTB to redeem their trust units on demand. Upon receipt of the redemption notice, all rights to and under the trust units tendered for redemption are surrendered and the holder thereof is entitled to receive a price per trust unit (“Redemption Price”), as determined by a market formula. The Redemption Price is to be paid in accordance with the conditions provided for in the Declaration of Trust. BTB trust units are considered liability instruments under IFRS because the trust units are redeemable at the option of the holder, however they are presented as equity in accordance with IAS 32.

Trust units issued and outstanding are as follows:

	Six-month period ended June 30, 2020		Year ended December 31, 2019	
	Units	\$	Units	\$
Trust units outstanding, beginning of period	62,251,558	305,029	55,317,723	274,231

### a) Distribution reinvestment plan

BTB offers a distribution reinvestment plan for its trust unitholders. Participation in the plan is optional and under the terms of the plan, cash distribution on trust units are used to purchase additional trust units. The trust units are issued from BTB’s treasury at a price based on the volume-weighted average of the trading prices on the Toronto Stock Exchange for the last five trading days before the distribution date, less a 3% discount.

	<b>23,063</b>	<b>22,437</b>	<b>46,931</b>	<b>44,071</b>

On May 25, 2020, the Government of Canada announced the CECRA program which provides relief for eligible businesses experiencing financial hardship due to COVID-19. Under the CECRA program, the Trust must abate 75% of gross rents due for April to June 2020 for CECRA-eligible tenants. In exchange of the abatements granted, the Trust is eligible to forgivable interest free loans from the Government of Canada amounting to 50% of gross rents due for April to June 2020, resulting in net abatements of 25%. The Trust believes it will meet all the criteria under the CECRA program for the loans to be forgiven. The Trust's assessment of tenants' eligibility to the CECRA program is inherently subjective due to the forward-looking nature of the assessments. As a result, the value of the expected net abatements is subject to a degree of uncertainty and is made based on assumptions which may not prove to be accurate with the unprecedented uncertainty caused by COVID-19.

## 14. Net Financial Expenses

Employee compensation and benefits expense	1,822	1,847	3,558	3,574

## 16. Earnings per Unit

BTB's trust units being puttable financial instruments presented as equity in accordance with IAS 32, the Trust is not required to report a profit or loss per trust unit figure on its consolidated statements of comprehensive income. However, for disclosure purposes only, the Trust has determined basic earnings per unit using the same basis that would apply in accordance with IAS 33, Earnings per Share.

Net earnings per unit are calculated based on the weighted average number of trust units outstanding as follows:

	Three-month periods ended June 30,		Six-month periods ended June 30,	
	2020	2019	2020	2019
	\$	\$	\$	\$
Net (loss) income	(1,101)	3,316	(6,688)	4,697

<b>Earnings per unit – basic</b>	<b>(0.02)</b>	<b>0.06</b>	<b>(0.11)</b>	<b>0.08</b>

## 17. Liquidity Risk Management

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they come due. Liquidity risk is managed by:

- maximizing cash flows from operations;
- adopting an investment property acquisition and improvement program that takes into account available liquidity;
- using credit facilities;
- staggering mortgage loan maturities;
- maximizing the value of investment properties, thus increasing mortgage financing on renewal of loans; and
- issuing debt securities or BTB's units on the financial markets.

Management believes that the Trust will be able to obtain the financing required to make the payments coming due in the next year. However, there is a risk that changes affecting market conditions and access to financing may invalidate this assumption.

In light of COVID-19, the Trust has implemented the following mitigation measures:

- the Trust negotiated carry-overs of monthly interest payments, capital payments or both with its major mortgage lenders. Thus, payments totalling \$3,158 for the months of April to October 2020 were deferred by financial institutions;
- the Trust benefited from the deferral of municipal tax payments offered by Quebec municipalities. However, the total value of municipal tax deferred payments must be repaid in the third and fourth quarters of 2020;
- the Board of Trustees approved a decrease in distribution payable to unitholders, beginning with the May 2020 distribution, payable on June 15, 2020. The monthly distribution per unit decreased from \$0.035 to \$0.025, representing a decrease of 28.6%. This measure will preserve cash flow of approximately \$555 per month.

Some mortgage loans include subjective and restrictive covenant clauses under which the Trust must comply with financial conditions and ratios.

As at June 30, 2020, the Trust was in compliance with all the covenants to which it was subject except for one mortgage loan's debt service coverage ratio. The mortgage loan is maturing in July 2020 and is therefore already included in the 2020 scheduled repayments. The balance of the mortgage loan as at June 30, 2020 was \$18,113. The Trust has always met the other mortgage loan provisions and has never been late on a monthly payment. Subsequent to quarter end the Trust refinanced the mortgage loan for the entire amount outstanding.

## 18. Operating Segments

For investment properties, discrete financial information is provided to the CEO on an aggregated investment property basis. The information provided is net rentals (including gross rent and property expenses), the change in fair value of investment properties and fair value of investment properties. The individual investment properties are aggregated into segments with similar economic characteristics. The CEO considers that this is best achieved by aggregating into retail, office, industrial and mixed use segments.

Consequently, the Trust is considered to have four operating segments, as follows:

- Retail
- Office
- Industrial
- Mixed-use

	Retail	Office	Industrial	Mixed-use	Total
	\$	\$	\$	\$	\$
<b>Three-month period ended June 30, 2020</b>

## 19. Commitments and Contingencies

### Litigation

The Trust is involved in litigation and claims which arise from time to time in the normal course of business. These litigation and claims are generally covered by insurance. In the opinion of management, any liability that may arise from such contingencies will not have a significant adverse effect on the Trust's consolidated financial statements.
